REMEMBER:

We guarantee condition of every Boxed Lot from Cold Storage.
Your planting season is prolonged several weeks by this service.

ST. LOUIS, MISSOURI
ROCHESTER, NEW YORK

MARCH 15, 1921.

To the Trade:

This Bulletin covers Boxed Lots in cold storage at St. Louis and Boxed Lots in cold storage at Rochester, New York. Our offices in St. Louis and Rochester are now open for the dispatch of business. "Quick action" is the motto of both offices.

A code word is given for each boxed lot, and your orders by wire or letter will get the goods rolling **right now**—or will reserve for later shipment as desired.

WEIGHT OF BOXES is given so that you can figure on express shipments intelligently.

Do you realize that Cold Storage is a very valuable thing to the Nurserymen? These Boxed Lots are kept in a uniform temperature of 33 degrees. It retards the flow of sap and thereby prolongs the planting season for weeks. The landscape planter in Florida even can draw on these Boxed Lots as late as April 15th and receive stock in perfect condition. Bear this in mind if you are now wondering how you can handle all your planting work this spring. Book the order, let us reserve the boxes for shipment after the middle of April if desired.

TERMS and conditions of Sale as per our regular Trade List; cash with order where purchaser's credit is unknown to us.

ORDERS booked in rotation as received.

Always name second choice if possible.

Shipments will be made when desired.

RUSH SERVICE on Boxed Lots is easy; no packing to do, simply grab a box and get it on the express wagon or dray. Henry Chase is in St. Louis and Robert Chase in Rochester to handle the shipping. If possible get your freight orders to us before 3 p. m. for shipment that day. Express orders will go out on night trains, if received by 4:30 p. m.

PROMPT SHIPMENT

All supply orders (except printed matter) are usually shipped next train after receipt. We try to carry a complete stock at all times. Our location at Chase gives us unsurpassed facilities for quick action on rush orders—two lines of railway at our doors.

KNIVES

Made especially for us by a manufacturer who is "fussy" about the quality of his output. Have used and handled these knives for twenty years.

C. A. G. PRUNER—Stationary handle; full length 8 inches; length of blade $3\frac{1}{4}$ inches; well balanced "hook" and easy on the operator. Handle of hardwood fastened with three rivets set diagonally. After testing out this knife in our own work we have decided to offer it to the trade as the best Pruning Knife of reasonable cost that we can find. Price, 85c each, postpaid; \$9.40 per dozen, postage extra.

GRAFTING—C. A. G. Grafter ($\frac{3}{4}$ size)—Our sales on this knife to satisfied nurserymen and florists are more than five hundred dozen. It is more knife for grafting and general use for the money than any on the market. Makes a good serviceable pocket knife. Cocoa handle; 70c each, postpaid; \$7.25 per dozen, postage extra.

BUDDING—Heavy American Budder ($\frac{3}{4}$ size)—This knife has been selected after trial as the best Budding Knife available in sure supply. Cannot get Wostenholm now. Price, each, postpaid, \$1.50; per dozen \$17.00, postage extra.

BUDDING—Stationary Budder (blade does not fold)—Note shape, size and "hang" of blade. Made for budding, but not as convenient for the pocket as the others; 50c each, postpaid; \$5.20 per dozen, postage extra.

WHETSTONE

The best for budding and grafting knives; 28c each postpaid. Per dozen, \$3.00. Postage extra.

PRUNING SHEARS

AMERICAN, 9 inches—This is a low-priced, good, well built, all around pruning shear. Have handled these for years and they give full value in service. Weight, 14 ounces; volute steel spring.
